Xenophilus Lovegood is the editor of The Quibbler, a magazine that has recently been running some controversial articles that have rocked the world of wizardry. His body has been found at the magazine offices, killed by a rare and unusual spell. One witness reported seeing two muggles fleeing the scene, while another has suggested that Death Eaters may have been in the area.

### The Mummy Awakes Friday 18<sup>th</sup> October

It's Halloween, and a Mummy appears to be on the loose on Hayling Island. The year is 1922 and Sir Seymour Crypts is back from Egypt, having discovered the resting place of Price Huff (Tutt's brother). Guests will hear a fascinating description of the moment the tomb was discovered before learning that the sarcophagus has been found opened at Portsmouth Docks along with two guards with their necks broken.
